If you have had an interest in getting more involved in Rider Education, or if you are a Rider Educator, now is your opportunity. Washington District Rider Education is presenting the GWRRA Rider Education *Seminar Presenter Development Program (SPDP)*. This class will be held in conjunction with the Rider Education Workshops on March 21, 2009 on the Westside of the state and May 9, 2009 on the eastside of Washington. Now you may have taken a seminar presenter class in the past and while it covered some basics, this program has been vastly improved and has matured into something that can and certainly will learn from. This is a full day of training and includes peer teaching an approved GWRRA Seminar. With the successful completion of this class you will be a GWRRA Seminar Presenter. This allows you to teach the following classes for GWRRA:

- Co-Rider Class
- Motorcycle Crash Scene Response
- Motorcycling for Mature Riders
- Road Captain Course
- Team Riding Seminar
- Trailering
- Seasoned Rider Supplement

Without a current Seminar Presenter accreditation, you would not be able to teach these classes. If you are interested, please respond quickly, as there are only 12 spots available at each workshop. For more information, please contact the Washington District Educator Jim Swart, jpswart@comcast.net, or Mike Briggs, mlbriggs60@msn.com.
